Did You Know?

- This remittance advice (RA) is your way to reconcile payments with your accounting and your claims.
- You might know this by another name like EOB, EOP, check stub but we call it an RA, and it's the document that shows exactly what claims and services have been paid (or denied) within the disbursement/payment.
- For legal/regulatory reasons, multiple checking accounts are maintained based on the financially responsible party and payments are made from the appropriate account, which may result in multiple payments and RAs.
- Over the past several years, EyeMed has implemented enhancements to inFocus and our internal claims system to ensure our providers have the best possible experience. This included a system migration from our preexisting accounting system to a newer, more efficient platform. Your balance will be adjusted based on the transfer to the new platform. For more details please refer to your statement.
- For more information about reconciling your payments, view our how to modules on eyemedinfocus.com.
